CAMP HALE

School Information Form

To the classroom teacher:

Camp Hale, a residential summer program, has served Boston area boys since 1900 and now girls since 2012. The camp, located in central New Hampshire, focuses on group living experiences and outdoor activities such as swimming, athletics, crafts, and hiking. Seven campers live in each cabin with two college-age counselors who closely supervise daily routines, instruction and recreation.

It is important to us that every child who attends Camp Hale has a positive experience as they spend an extended amount of time away from their home environment and surroundings. Your observations will help us prepare for and secure a successful experience at camp for the above-named child. Thank you for your cooperation.
